Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-019-10278-x>, published online 03 June 2019.

The original version of this Article contained an error in Fig. 2b, in which the representative image for ‘*App^{NL-G-F}*’ mice at 24 months (bottom row, far right) was inadvertently duplicated from the image to its left, the representative image for the ‘WT’. This has been corrected in both the PDF and HTML versions of the Article.
