Author Correction: Revisiting the pH-gated conformational switch on the activities of HisKA-family histidine kinases

Cristina Mideros-Mora , Laura Miguel-Romero , Alonso Felipe-Ruiz , Patricia Casino  & Alberto Marina 

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-020-14540-5>, published online 7 February 2020.

The original version of this Article omitted a reference to previous work in ‘Chakraborty, S., Winardhi, R.S., Morgan, L.K., Yan, J. & Kenney, L.J. Non-canonical activation of OmpR drives acid and osmotic stress responses in single bacterial cells. *Nat. Commun.* **8**, 1587 (2017)’. This has been added as reference 29 after the fourth sentence in the Results paragraph ‘pH Influence on the functional activities of EnvZ-OmpR’: ‘A substantial reduction in EnvZ autophosphorylation induced by lowering the pH (from 7.5 to 5.5) has also been demonstrated previously²⁹.’ This has been corrected in the PDF and HTML versions of the Article.
