# Author Correction: NADH oxidase-dependent CD39 expression by CD8<sup>+</sup> T cells modulates interferon gamma responses via generation of adenosine

Aiping Bai, Alan Moss, Sonja Rothweiler, Maria Serena Longhi, Yan Wu, Wolfgang G. Junger & Simon C. Robson

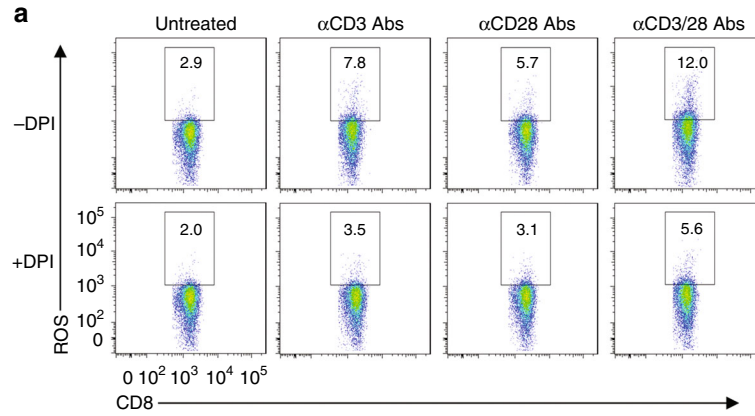

Correction to: *Nature Communications* <https://doi.org/10.1038/ncomms9819>, published online 9 November 2015.

In the original version of this Article, Fig. 3, panel a contained several errors.

1. The representative dot plot of the untreated cells, -DPI (leftmost image, upper row) has been inadvertently replaced with a duplicate image representing untreated cells, +DPI (leftmost dot plot from the lower row).
2. The frequency of gated cells in the samples treated with  $\alpha$ CD3 and  $\alpha$ CD28 Abs, -DPI (second and third dot plots, the upper row) was incorrectly labelled as 7.8 and 5.7 instead of 6.8 and 5.8, respectively.
3. The dot plots representing samples treated with  $\alpha$ CD3 and  $\alpha$ CD28 Abs, +DPI (second and third dot plots, the lower row) have been inadvertently switched. The correct version of Fig. 3a is:

The incorrect version is:

In addition, the upper dot plot in Fig. 3, panel e had been inadvertently replaced with a duplicate image from Fig. 3d. The correct version of Fig. 3e is:

The incorrect version is:

In the legend of Fig. 3e, the number of samples for CD226 expression is stated incorrectly as ( $n = 11$ ). The correct number is ( $n = 18$ ).

These errors are not corrected in the PDF or HTML versions of the Article.
