Author Correction: HIF1 α inhibition facilitates Leflunomide-AHR-CRP signaling to attenuate bone erosion in CRP-aberrant rheumatoid arthritis

Chao Liang , Jie Li, Cheng Lu, Duoli Xie, Jin Liu, Chuanxin Zhong, Xiaohao Wu, Rongchen Dai, Huarui Zhang, Daogang Guan, Baosheng Guo, Bing He, Fangfei Li, Xiaojuan He, Wandong Zhang, Bao-Ting Zhang, Ge Zhang & Aiping Lu

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-019-12163-z>, published online 8 October 2019.

This Article contained errors in Figs. 4i and 5a, for which the authors apologise. The lanes labelled ARNT (lower row) in Fig. 4i and HIF1 α in Fig. 5a were not from the membranes used to probe for the other proteins shown in each panel. These have now been replaced with the correct rows from the same membranes. These errors were reproduced in the source data file that contains the uncropped membranes. The errors did not affect the conclusions of the manuscript. They have now been corrected both the PDF and HTML versions of the Article, and the Source Data file has been amended to include the correct images of the respective uncropped membranes.
