Author Correction: A role for Biofoundries in rapid development and validation of automated SARS-CoV-2 clinical diagnostics

Michael A. Crone , Miles Priestman , Marta Ciechonska , Kirsten Jensen, David J. Sharp, Arthi Anand, Paul Randell, Marko Storch & Paul S. Freemont

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-020-18130-3>, published online 08 September 2020.

The original version of this manuscript did not include a link to the RNA Extraction Protocol scripts that are publically available at Zenodo. The scripts can be found at the following URL: <https://doi.org/10.5281/zenodo.4021454>

In addition, the original version of this Article omitted a declaration from the Competing Interests statement, which should have included the following: “M. Priestman and M. Ciechonska are co-founders of Salient Labs. All other authors declare no competing interests.”

This has now been corrected in both the PDF and HTML versions of the Article.
