Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-020-18411-x>, published online 21 September 2020.

The original version of this Article contained an error in Fig. 7b, where the *p* value for the association of the rs246185 SNP with MKL2 expression was accidentally copied during typesetting from the above panel, showing association with lincNORS, and incorrectly reported as $7.64e - 7$. The correct *p* value is $1.45e - 1$.

This has now been corrected in both the PDF and HTML versions of the Article.
