Author Correction: Measurement of the neutron charge radius and the role of its constituents

H. Atac , M. Constantinou , Z.-E. Meziani , M. Paolone  & N. Sparveris 

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-021-22028-z>, published online 19 March 2021.

The original version of the Supplementary Information associated with this Article omitted a reference to previous work in *Phys. Rev. C* **83**, 055203 (2011). This has been added as reference [34] in Section 3 of the Supplementary Information: “The Galster is a long standing phenomenological parametrization that could adequately describe the early G_E^p data, but as recent experiments revealed³⁴ it does not have sufficient freedom to accommodate reasonable values of the radius, without constraining or compromising the fit”.

This has been corrected in the PDF and HTML versions of the Article.

Published online: 27 May 2021
