Author Correction: The nucleotide pGpp acts as a third alarmone in *Bacillus*, with functions distinct from those of (p)ppGpp

Jin Yang , Brent W. Anderson , Asan Turdiev, Husan Turdiev, David M. Stevenson, Daniel Amador-Noguez , Vincent T. Lee & Jue D. Wang

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-020-19166-1>, published online 23 October 2020.

The original version of this Article contained an error in Fig. 1d, in which the schematic arrow related to HflX was incorrectly placed between 100S and 50S ribosomes, rather than between 100S and 70S ribosomes.

In addition, the original version of this Article contained an error in the title, which was previously incorrectly given as ‘The nucleotide pGpp acts as a third alarmone in *Bacillus*, with functions distinct from those of (p) ppGpp’. The correct version states ‘(p)ppGpp’ in place of ‘(p) ppGpp’.

Both errors have been corrected in both the PDF and HTML versions of the Article.
