Publisher Correction: GIANA allows computationally-efficient TCR clustering and multi-disease repertoire classification by isometric transformation

Hongyi Zhang, Xiaowei Zhan & Bo Li

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-021-25006-7>, published online 4 August 2021.

In the original version of this Article Equation 13 was mistakenly formulated as:

$$\Omega_6 = \begin{pmatrix} \underline{0} & \underline{0} & \Omega_2 \\ \Omega_2 & \underline{0} & \underline{0} \\ \underline{0} & \Omega_2 & \Omega_2 \end{pmatrix}$$

The correct formulation is:

$$\Omega_6 = \begin{pmatrix} \underline{0} & \underline{0} & \Omega_2 \\ \Omega_2 & \underline{0} & \underline{0} \\ \underline{0} & \Omega_2 & \underline{0} \end{pmatrix}$$

This has been corrected in both the HTML and PDF versions of the Article.
