Publisher Correction: Circadian lipid and hepatic protein rhythms shift with a phase response curve different than melatonin

Brianne A. Kent, Shadab A. Rahman, Melissa A. St. Hilaire , Leilah K. Grant, Melanie Ruger, Charles A. Czeisler  & Steven W. Lockley

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-022-28308-6>, published online 03 February 2022.

The original version of this article contained an error in the Abstract, where the text ‘0000’ was inadvertently introduced by the publisher. The incorrect sentence read ‘The timing of plasma rhythms was assessed by constant routine before and after exposure to a combined 6.5-hour blue light exposure and standard meal schedule, which was systematically varied by $\sim 20^\circ$ between in0000individuals.’ The correct sentence now reads ‘The timing of plasma rhythms was assessed by constant routine before and after exposure to a combined 6.5-hour blue light exposure and standard meal schedule, which was systematically varied by $\sim 20^\circ$ between individuals.’ This has now been corrected in the HTML and PDF versions of the article.
