The original version of this article contained an error in the “Results” section. A sentence incorrectly read ‘At the group level, the mean regression coefficient (across subjects) was significantly different from 0 (two sample t test, $t = 4.77$, $p < 0.001$)’ instead of ‘At the group level, the mean regression coefficient (across subjects) was significantly different from 0 (one-sample t test, two tailed, $t = 4.77$, $p < 0.001$).’ The original article has been corrected.
