Check for updates

The original version of this Article contained an error in Fig. 1. In the original version of Fig. 1a, the snapshots start from liquid metal droplets sticking to substrate which is not consistent with what the authors described in the article. The order of snapshots 4 and 5 in Fig. 1b was reversed. The correct version of Fig. 1 is:

Corrections & amendments

which replaces the previous incorrect version:

In the original version of this Article, Eq. (2) contained two typographical errors, which was incorrectly written as:

$$e = \left\{ \frac{1}{2} - C_1 \cdot \frac{1}{22We} \cdot \frac{\gamma_{wa}}{\gamma_{ma}} \cdot \frac{1}{H} - C_2 \cdot \frac{3\pi}{10} \cdot We^{10/9} Oh_f^{1/9} \left(\frac{\gamma_{mw}}{\gamma_{ma}} \right)^{-11/18} \right\}^{0.5}$$

The correct equation should be written as:

$$e = \left\{ \frac{1}{2} - C_1 \cdot \frac{3}{2We} \cdot \frac{\gamma_{wa}}{\gamma_{ma}} \cdot \frac{1}{H} - C_2 \cdot \frac{3}{10\pi} \cdot We^{10/9} Oh_f^{1/9} \left(\frac{\gamma_{mw}}{\gamma_{ma}} \right)^{-11/18} \right\}^{0.5}$$

These errors have been corrected in both the PDF and HTML versions of the Article.
