Publisher Correction: The SERK3 *elongated* allele defines a role for BIR ectodomains in brassinosteroid signalling

Ulrich Hohmann , Joël Nicolet, Andrea Moretti, Ludwig A. Hothorn and Michael Hothorn

Correction to: *Nature Plants* <https://doi.org/10.1038/s41477-018-0150-9>, published online 7 May 2018.

In the version of this Letter originally published, there were errors in the *x* axis labels of Figs 1, 2 and 4: in Fig. 1b, the label Col-0 should not have been included on the axis; in Fig. 2b BIR should have read BIR2, and DN221 should have read D122N; in Fig. 4f, pSEK3 should have read pSERK3. These figures have now been amended in all versions of the Letter.
