The version of this article initially published contained incorrect information related to a mis-named protein SHH2 in reference 50 (Zhao et al., *Cell Rep.* **22**, 1090–1102 (2018)). According to the reference, SHH2 was proved to bind to H3K4me3 by an in vitro assay. However, in Supplementary Table S1 of the reference, SHH2 refers to AT1G77300 (ASHH2) but not AT3G18380 (SHH2). At present, there is no evidence that SHH2 binds to H3K4me3. Thus, four statements treating SHH2 as an H3K4me3 reader in our article were incorrect and have been removed from the Results, Discussion and Figure 7 legend. The conclusions of the study are not affected by these corrections. The changes have been made in the HTML and PDF versions of the article.
