In the version of the article initially published, there was an error in Extended Data Fig. 2a where the arrangement of the epigenetic modification tracks for the first four genes was incorrect; they have now been reordered. In the Methods, in the “RNA-seq, ATAC-seq and CUT&Tag experiment” section, the labelling of the H3K4me3 antibody has been corrected to “H3K4me3, Abcam, ab8580” from “ab8582”. These corrections have been made in the HTML and PDF versions of the article.
