The original version of this Article contained errors in Eqs. (5) and (6) in the Methods. The left-hand side of both Eqs. (5) and (6) incorrectly showed $\frac{da}{dt}$ instead of the correct $\frac{da}{dT}$. The correct versions of Eqs. (5) and (6) are:

$$\frac{da}{dT} = \frac{v}{\beta} \exp\left(-\frac{E_a}{RT}\right) \left[1 + \frac{v RT^2}{\beta E_a} \exp\left(-\frac{E_a}{RT}\right)\right]^{-2} \quad (5)$$

$$\frac{da}{dT} = \frac{v}{\beta} \exp\left[-\frac{E_a}{RT} - \frac{v RT^2}{\beta E_a} \exp\left(-\frac{E_a}{RT}\right)\right] \quad (6)$$

This has now been corrected in both the PDF and HTML versions of the Article.
