# Author Correction: Long-term aging of CVD grown 2D-MoS<sub>2</sub> nanosheets in ambient environment

Nitul S. Rajput , Ahmed Kotbi , Khaled Kaja and Mustapha Jouiad

*npj Materials Degradation* (2022)6:80; <https://doi.org/10.1038/s41529-022-00293-7>

Correction to: *npj Materials Degradation* <https://doi.org/10.1038/s41529-022-00288-4>, published online 06 September 2022

In the original version of this Article, the definition for scale bars in Figures 1–3 were inadvertently omitted. In the corrected version, sentences “The scale bars in a, b and c are 1  $\mu\text{m}$ .”, “The scale bars in a and b are 200 nm.” and “The scale bars in a, b and inset of b are 100 nm, 10 nm and 10 1/nm, respectively.” are added at the end of the captions of Figure 1, Figure 2 and Figure 3, respectively.

The fifth sentence in the first paragraph of “Methods” section originally stated “The sample was than exposed to laboratory ambient conditions”. In the corrected version, “than” is replaced by “then”.

The fourth sentence in the second paragraph of “Methods” section originally stated “The tool was also accessory used to prepare cross-sectional samples and thin lamellas for TEM measurements”. In the corrected version, “accessory” is deleted.

The second sentence in “Acknowledgement” section originally stated “Authors are thankful to Dr. G. Deokar for proving the

samples.” In the corrected version, “proving” is replaced by “providing”.

The changes have been corrected in the PDF and HTML versions of the Article.
