Publisher Correction: Quantum nonlocality without entanglement: explicit dependence on prior probabilities of nonorthogonal mirror-symmetric states

Donghoon Ha and Younghun Kwon

npj Quantum Information (2021)7:104; <https://doi.org/10.1038/s41534-021-00441-y>

Correction to: *npj Quantum Information* <https://doi.org/10.1038/s41534-021-00415-0>, published online 25 May 2021

The original version of this Article contained multiple errors in the caption of Fig. 3, in which “ γ_+° ” and “ γ_-° ” were incorrectly represented.

The first two sentences originally read “ γ_0° (black), γ_+ (red), and γ_- (blue) corresponding to $\epsilon \in (0, \frac{\pi}{2})$: when $0 < \epsilon < \frac{\pi}{4}$, γ_0° and γ_+° are positive. However, when $\frac{\pi}{4} \leq \epsilon < \frac{\pi}{2}$, γ_0° and γ_-° are non-positive”. The correct version reads “ γ_0° (black), γ_+° (red), and γ_-° (blue) corresponding to $\epsilon \in (0, \frac{\pi}{2})$: when $0 < \epsilon < \frac{\pi}{4}$, γ_0° and γ_+° are positive. However, when $\frac{\pi}{4} \leq \epsilon < \frac{\pi}{2}$, γ_0° and γ_-° are non-positive.”

This has been corrected in both the PDF and HTML versions of the Article.
