Author Correction: Inhibiting PD-L1 palmitoylation enhances T-cell immune responses against tumours

Han Yao , Jiang Lan, Chushu Li, Hubing Shi, Jean-Philippe Brosseau, Huanbin Wang, Haojie Lu, Caiyun Fang, Yao Zhang, Lunxi Liang, Xiaolin Zhou, Chaojun Wang, Yu Xue, Yun Cui and Jie Xu

Correction to: *Nature Biomedical Engineering* <https://doi.org/10.1038/s41551-019-0375-6>, published online 25 March 2019.

In the version of this Article originally published, ‘palmitoyltransferase ZDHHC3 (DHHHC3)’ was incorrectly referred to as an ‘acetyltransferase’ rather than an ‘acyltransferase’; this has now been corrected in five instances. In Fig. 3a, the label for the bottom row of the blots was mistakenly written as ‘GAPHD’; it should have read ‘GAPDH’. In the two right-most panels of Fig. 4j, the antibody labels ‘ α -PD-L1’ for the reciprocal co-immunoprecipitation of DHHHC3 were incorrect; they should have been ‘ α -DHHHC3’. These errors have been corrected in all versions of the Article.
