Author Correction: CAR-T cells targeting a nucleophosmin neoepitope exhibit potent specific activity in mouse models of acute myeloid leukaemia

Guozhu Xie, Nikola A. Ivica , Bin Jia, Yingzhong Li , Han Dong, Yong Liang, Douglas Brown, Rizwan Romee and Jianzhu Chen

Correction to: *Nature Biomedical Engineering* <https://doi.org/10.1038/s41551-020-00625-5>, published online 12 October 2020.

In the version of this Article originally published, the name of the author Rizwan Romee was mistakenly written as 'Romee Rizwan'. Also, in Fig. 1b, the antigen labels in rounds 1, 3, 4 and 6 were incorrect; these rounds all used 'AIQ-HLA-A2', not 'AIO-HLA-A2'. Finally, in Fig. 3d, the y-axis labels for the middle and bottom rows of graphs should have read 'SLL-HLA-A2' and 'HLA-A2', respectively, rather than 'AIQ-HLA-A2'. These errors have all been corrected.
