In the version of this Article originally published, some key information was missing from the legend for Fig. 1b. The following sentence should be added to annotate the immunoblotting samples: ‘Line 1 is GST-Akt1 input control and lines 2–4 show in vitro binding assay followed by immunoprecipitation (IP) Flag-SETDB1 and IB analysis’.

In the version of this Resource originally published, there were two errors in the Methods section. In the first sentence of subsection ‘treatment of RNA with AlkB’, ‘2,000 U RNase inhibitor’ should instead be ‘2,000 U ml⁻¹ RNase inhibitor’. In the first sentence of subsection ‘treatment of RNA with T4PNK’, ‘10 mM ATP’ should instead be ‘1 mM ATP’. The errors have been corrected.
