

## Author Correction: Decoupling electron and ion storage and the path from interfacial storage to artificial electrodes

Chia-Chin Chen and Joachim Maier 

Correction to: *Nature Energy* <https://doi.org/10.1038/s41560-017-0084-x>, published online 5 February 2018.

In the version of this Perspective originally published, in the sentence “It is worthy of note that the final LiF-free situation characterized by MnO taking up the holes and the (F<sup>-</sup> containing) MnO surface taking up the lithium ions is also a subcase of the job-sharing concept<sup>23</sup>”, the word ‘holes’ should have been ‘electrons’. This has now been corrected.
