

Author Correction: Rivers as the largest source of mercury to coastal oceans worldwide

Maodian Liu, Qianru Zhang, Taylor Maavara , Shaoda Liu, Xuejun Wang  and Peter A. Raymond 

Correction to: *Nature Geoscience* <https://doi.org/10.1038/s41561-021-00793-2>, published online 22 July 2021.

In the version of this Article initially published, there were three labeling errors in Fig. 1a. Across the top-center of the map, starting below “Northern Greenland” on the center-left, the label reading “Baltic Sea” has been corrected to read “Southern Greenland.” The original label “Southern Greenland” in the top-middle has been changed to read “Norwegian Basin,” while the label to the center-right reading “Norwegian Basin” has been corrected to read “Baltic Sea.”

The Article has been corrected in the online version of the paper.
