In the version of this Letter originally published, the last term of the equation for ϵ_k^R in the Methods incorrectly read $8t_{[2,1,1]}^R [\cos(2k_x) + \cos(k_y) \cos(k_x) \cos(2k_y)] \cos(k_z)$; it should have read $8t_{[2,1,1]}^R [\cos(2k_x) \cos(k_y) + \cos(k_x) \cos(2k_y)] \cos(k_z)$. This has now been corrected in the online versions of this Letter.

In the version of this Letter originally published, the Supplementary Information incorrectly referred to $Fe_{0.35}NbS_2$ crystals throughout; it should have referred to $Fe_{0.33}NbS_2$ crystals. Also, the following sentence should not have been included in the Supplementary Information so has been deleted: ‘The switching is of approximately the same amplitude as the device shown in the main text.’ Finally, in the caption of Supplementary Fig. 8, the current density was incorrectly given as $8.8 \times 10^4 \text{ A/cm}^2$; it should have been $7.1 \times 10^4 \text{ A/cm}^2$. The Supplementary Information has now been replaced to include these changes.
