

Publisher Correction: Topological frustration induces unconventional magnetism in a nanographene

Shantanu Mishra, Doreen Beyer, Kristjan Eimre , Shawulienu Kezilebieke, Reinhard Berger, Oliver Gröning, Carlo A. Pignedoli, Klaus Müllen, Peter Liljeroth , Pascal Ruffieux , Xinliang Feng and Roman Fasel 

Correction to: *Nature Nanotechnology* <https://doi.org/10.1038/s41565-019-0577-9>, published online 9 December 2019.

In the version of this Letter originally published online, in Fig. 2e and Fig. 3j, “Spin density Bohr magneton (μ_B)” should have been “Spin density (μ_B)”, in Fig. 2m, each pair of angular brackets ‘ $\langle \rangle$ ’ should have been a ket ‘ $| \rangle$ ’, and, in the caption for Extended Data Fig. 1, ‘ $n_{\uparrow} = n_{\downarrow} + 2$ ’ should have been ‘ $n_{\uparrow} = n_{\downarrow} + 2$ ’. These errors have been corrected in all versions of the Article.
