In the version of this Article originally published, a normalization factor was missing in the function used to create the right side of the plot in Fig. 2b (where $\beta > 2$); that is, $\text{Re}\lambda_+ = -\beta / 2 + \sqrt{\beta^2 - 4}$ was used, but it should have been $\text{Re}\lambda_+ = -\beta / 2 + \sqrt{\beta^2 - 4} / 2$ (as indicated in the text). As Fig. 2b was only used as an illustration, the conclusions in the Article do not change. The original and corrected Fig. 2b are shown below.
