In the version of this article originally published, there were errors in Box 1, where in the final term of equation (1), the “ $t$ ” in “ $\hat{N}(x, y, t)A$ ” appeared as an omega; in the text directly below equation (5) citing equation (5), the text originally cited equation (2); in the first and second sentence of the illustration legend, citations to equation (6) originally cited equation (3); and the negative signs preceding the second and third terms of equation (6) were missing or written as plus signs, respectively. In addition, the Figure 3 caption for panel **d**, now beginning “**d**, Coupled with the Kerr nonlinearity,” initially appeared one sentence earlier. The errors have been corrected in the HTML and PDF versions of the article.
