Author Correction: Genetic relatedness analysis: modern data and new challenges

Bruce S. Weir, Amy D. Anderson and Amanda B. Hepler

Correction to: *Nature Reviews Genetics* <https://doi.org/10.1038/nrg1960>, published online 01 October 2006.

The authors regret an error in Figure 1 and its legend. The last sentence of the legend should be “The calculation of θ is provided below the figure using δ or Δ .” The equation “ $\theta = k_1/2 + k_1/4$ ” should be changed to “ $\theta = k_2/2 + k_1/4$, provided X, Y are not inbred.” In the example scenario, X, Y are full sibs with first-cousin parents and so they are inbred: their coancestry θ does not follow from the expression involving only k . The authors are grateful for having their error noticed by a reader.
