## Publisher Correction: Mucosal vaccines — fortifying the frontiers

Ed C. Lavelle  and Ross W. Ward 

Correction to: *Nature Reviews Immunology* <https://doi.org/10.1038/s41577-021-00583-2>, published online 26 July 2021.

In Figure 2 describing the ‘Licensed mucosal vaccines’ the green box detailing the rotavirus vaccines was incorrectly labelled as ‘Poliovirus’ in the originally published version. Further, in the peach “*Vibrio cholerae*” box, the composition for Vaxchora inadvertently duplicated text from the box above and has been amended to read “live attenuated 01 serogroup (Inaba) - ctxA attenuation.” This has all now been corrected and we apologize for the errors.
