

Author Correction: Anti-trypanosomatid drug discovery: progress and challenges

Manu De Rycker , Susan Wyllie, David Horn , Kevin D. Read  and Ian H. Gilbert 

Correction to: *Nature Reviews Microbiology* <https://doi.org/10.1038/s41579-022-00777-y>, published online 22 August 2022.

In the version of this article initially published, in the fourth paragraph of the “Key challenges and solutions” section, in the sentence now reading “However, it is often possible to obtain highly selective inhibitors for the pathogen target compared with the human orthologue, even if there is close similarity between them, as exemplified by the proteasome^{54,56}, CPSF3 (ref.⁵²) or *N*-myristoyltransferases^{70,71},” *N*-myristoyltransferases originally appeared as “*N*-methyltransferases.” The error has been corrected in the HTML and PDF versions of the article.
