In the originally published version of this article, an incorrect description of the Polymyalgia Rheumatica Activity Score (PMR-AS) was given. The sentence “This score is based on the patient’s and physician’s global assessment, morning stiffness, the ability of the patient to elevate the arms and CRP levels” has been corrected to “This score is based on the patient’s pain assessment, physician’s global assessment, morning stiffness, the ability of the patient to elevate the arms and CRP levels.” This has been corrected in the HTML and PDF versions of the manuscript.
