Publisher Correction: Assessing the efficiency of changes in land use for mitigating climate change

Timothy D. Searchinger, Stefan Wirsenius, Tim Beringer & Patrice Dumas

Correction to: *Nature* <https://doi.org/10.1038/s41586-018-0757-z>, published online 12 December 2018.

In this Letter, the PANGAEA repository was referred to incorrectly in the ‘Code availability’ and ‘Data availability’ sections of the Methods: the link should be <https://doi.org/10.1594/PANGAEA.893761> instead of <https://doi.org/10.1594/PANGAEA.877266>. In addition, the sentence, “However, the more commonly used system 2 (75 kg ha⁻¹ yr⁻¹) generates roughly the same benefits as system 1...” should read, “However, the more commonly used system 2 (75 kg ha⁻¹ yr⁻¹) generates roughly the same benefits as sugarcane ethanol...” These errors have been corrected in the online versions of the Letter.
