In this Article, owing to an error in the production process, the *R* value stated in Fig. 5b should be 0.914 instead of -0.914. In addition, in Extended Data Fig. 4a, b, the *y* axis should range from -4.0 to 4.0, rather than from -0.4 to 0.4. Finally, a minor typographical error was corrected in the Abstract. The Article has been corrected online.
