In Fig. 3h of this Article, along the bottom row labelled 'IL-2', the third lane (above the 'WT' bracket) should be a plus and not a minus symbol, and the fourth lane (above the '*Aim2*^{-/-}' bracket) should be a minus and not a plus; from left to right, the symbols for the 'IL-2' row should therefore be: '- - + - - +'. In Extended Data Fig. 2k, the first label should be 'IL-17A⁺ IFN γ ⁺' rather than 'IL-17A⁺ IFN γ ⁻', and the third label should be 'IL-17A⁺ IFN γ ⁻' rather than 'IL-17A⁺ IFN γ ⁺'. In addition, in the final sentence of the Fig. 4 legend, the text should be 'two-sided *t*-test (**a-c**, **e** right, **m** right)' and not 'two-sided *t*-test (**a-c**, **e** right)'. The original Article has been corrected online.
