In the version of this Article initially published, an error appeared in the third sentence of the Methods section. A stray character “F” appeared to the right of the close bracket at the end of the equation in the sentence now reading “Pseudospins are encoded in the two-clock ground hyperfine states, with $|F=0, m_F=0\rangle = |\downarrow_z\rangle$ and $|F=1, m_F=0\rangle = |\uparrow_z\rangle$, where F and m_F are the quantum numbers for the total angular momentum and the component along z , respectively.”

The original Article has been corrected online.
