In the version of this Article initially published, Extended Data Fig. 4 had incorrect coloration and an incorrect legend. PacBio long reads matched against CLINVAR variants were incorrectly colored in light green instead of brown (top right of panel **a**). In the bottom shared legend (below panel **c**), Nanopore was incorrectly identified with a brown circle instead of dark green. This figure has been corrected with a new legend for CLINVAR/OMIM variant analysis (below panel **b**) and a separate, corrected legend for exam variant analysis at the bottom of the figure.

The online version of the article has been updated.
