In the version of this article initially published, there was an error in the *x*-axis labeling of Fig. 2a where “LI” and “LP” respectively, were interchanged. In addition, the legends of Supplementary Table 2 reported in the .xls file and in the Supplementary Note erroneously said “the effect size of the reference allele” where they should have said “the effect size of the alternative allele.” The errors have been corrected in the HTML and PDF versions of the article and Supplementary Information online.
