Marc Zapatka¹, Ivan Borozan², Daniel S. Brewer³, Murat Iskar, Adam Grundhoff⁴, Malik Alawi⁵, Nikita Desai, Holger Sültmann, Holger Moch, PCAWG Pathogens*, Colin S. Cooper, Roland Eils⁶, Vincent Ferretti, Peter Lichter⁷ & PCAWG Consortium**

In the published version of this paper, the members of the Pan-Cancer Analysis of Whole Genomes (PCAWG) Consortium were listed in the Supplementary Information; however, these members should have been included in the main paper. The original Article has been corrected to include the members and affiliations of the PCAWG Consortium in the main paper; the corrections have been made to the HTML version of the Article but not the PDF version. Additional corrections to affiliations have been made to the PDF and HTML versions of the original Article for consistency of information between the PCAWG list and the main paper. An additional affiliation has been added for Adam Grundhoff (German Center for Infection Research (DZIF), Partner Site Hamburg-Borstel-Lübeck-Riems, Hamburg, Germany); and Malik Alawi was included in the PCAWG Pathogens group.

*A list of authors and their affiliations appears online.
