

Publisher Correction: Gut CD4⁺ T cell phenotypes are a continuum molded by microbes, not by T_H archetypes

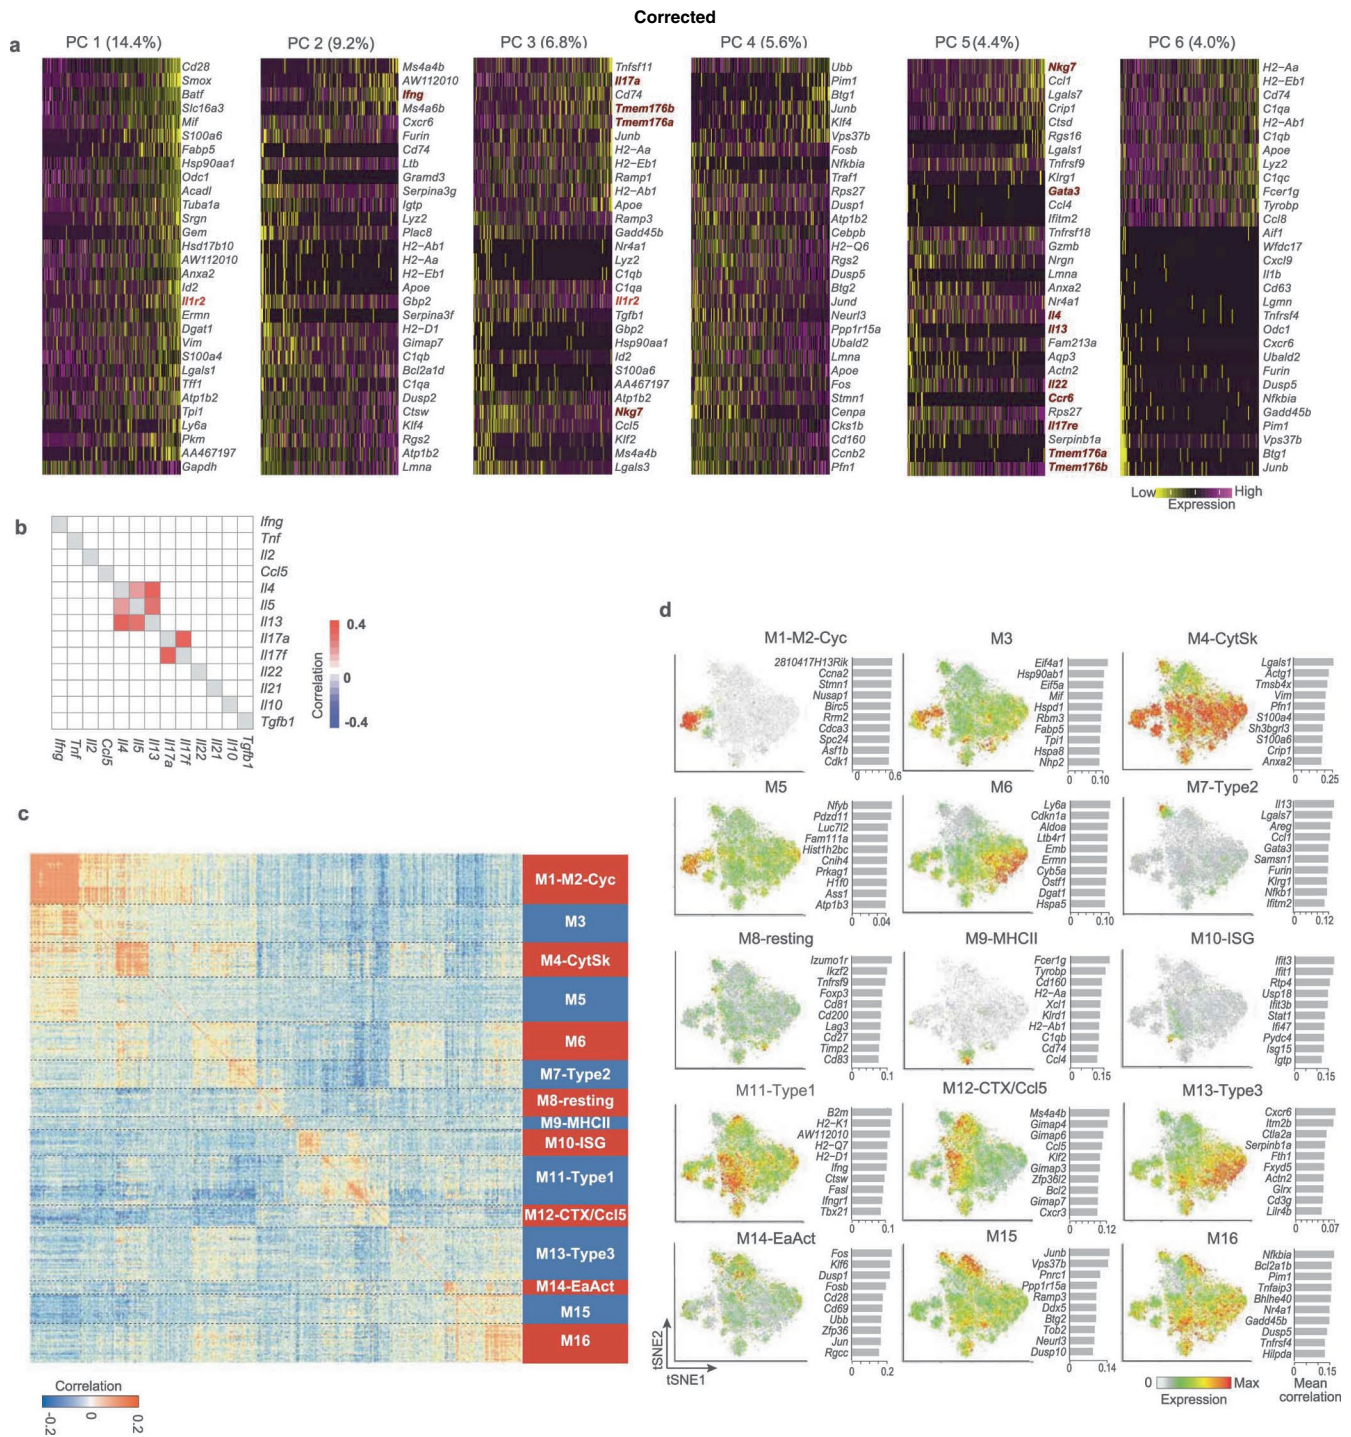

Evgeny Kiner, Elijah Willie, Brinda Vijaykumar, Kaitavjeet Chowdhary, Hugo Schmutz, Jodie Chandler, Alexandra Schnell, Pratiksha I. Thakore, Graham LeGros, Sara Mostafavi, Diane Mathis , Christophe Benoist  and The Immunological Genome Project Consortium*

Correction to: *Nature Immunology* <https://doi.org/10.1038/s41590-020-00836-7>, published online 18 January 2021.

In the version of this article initially published, in the second paragraph of Results section “T_{eff} phenotypes over time,” “*Tcra* and *Tcra* genes” should have read “*Tcra* and *Tcrb* genes.” In numbered paragraph 3 of “New T_{eff} populations,” “*C1q*” should have read “*C1qa*.” In the first paragraph of Methods, “*Cd45.1*^{-/-};*Cd45.2*^{-/-} mice” should have read “CD45.1⁺CD45.2⁺ mice.” Finally, the wrong image was posted for Extended Data Fig. 5. The errors have been corrected in the PDF and HTML versions of the article.
