

## Publisher Correction: ILC1s control leukemia stem cell fate and limit development of AML

Zhenlong Li, Rui Ma, Shoubao Ma, Lei Tian, Ting Lu, Jianying Zhang, Bethany L. Mundy-Bosse, Bin Zhang , Guido Marcucci, Michael A. Caligiuri  and Jianhua Yu 

Correction to: *Nature Immunology* <https://doi.org/10.1038/s41590-022-01198-y>, published online 29 April 2022.

In the version of the article originally published, a processing error led to the qualifier “in mice” remaining at the end of the third sentence of the abstract now reading “Here, we show that a high density of ILC1s induces leukemia stem cell (LSC) apoptosis.” The authors performed both human and mouse studies in vitro. The error has been corrected in the HTML and PDF versions of the article.
