Lo , Masashi Mori, Chao Wu , Sophie A. Valkenburg , Gaya K. Amarasinghe , Eric H. Y. Lau , David S. C. Hui , Gabriel M. Leung , Malik Peiris  & Joseph T. Wu 

In the version of the article initially published, there was a typographical error in the force of infection (FOI) formula under the second paragraph of the “Statistical Methods” section, originally reading  $\lambda(t) = \gamma \times f(a) \times VL(t) \times VE_{v,n(t)}(t - T_{n(t)})$ . The formula has been corrected to read  $\lambda(t) = \gamma \times f(a) \times VL(t) \times (1 - VE_{v,n(t)}(t - T_{n(t)}))$  in the HTML and PDF versions of the article. The results of the article were not affected by this error.
