Correction to: *Nature Neuroscience* <https://doi.org/10.1038/s41593-020-00742-z>, published online 23 November 2020.

In the version of this article originally published, there were errors in the Fig. 5 caption. The correct caption now reads “The striatum was divided into three subregions: NAcc (a), Pu (b) and Ca (c),” whereas in the incorrect version, the abbreviations for putamen and caudate were in the wrong order. The change has been made to the online version of the article.

## Author Correction: A deeper look at vision and memory

Thomas L. Botch, Caroline E. Robertson  and Emily S. Finn 

Correction to: *Nature Neuroscience* <https://doi.org/10.1038/s41593-021-00966-7>, published online 16 December 2021.

At the time of writing, the authors were not aware of the prior work of van Gerven et al. (End-to-end neural system identification with neural information flow. *PLOS Comput. Biol.* <https://doi.org/10.1371/journal.pcbi.1008558> (2021)) in end-to-end modeling while describing the work in this News & View. The second sentence of the sixth paragraph has been amended to acknowledge that work, and a new reference provided.

The changes have been made to the online version of the article.
