In the version of this article initially published, the volume of dimethyl sulfoxide (DMSO) for preparing 500 mM disuccinimidyl glutarate (DSG) described in the ‘Reagent setup’ section was incorrect. The correct volume is 306.5 μl , not 3,262.6 μl . In addition, the unit for the final concentration of T4 polynucleotide kinase (PNK) at Step 40 was incorrect. The correct unit is U/l, not U/ μl . The errors have been corrected in the HTML and PDF versions of the article.

Correction to: *Nature Protocols* <https://doi.org/10.1038/s41596-019-0225-8>, published online 8 November 2019.

In the version of this article initially published, the immunofluorescence staining images for TGFBI in Fig. 7 and Supplementary Fig. 7 inadvertently displayed the same image. This error does not affect the conclusions for either figure (the staining pattern is identical). Fig. 7 has been replaced with the correct image in the HTML and PDF versions of the article.
