Publisher Correction: Grassland dynamics in response to climate change and human activities in Xinjiang from 2000 to 2014

Renping Zhang^{1,2}, Tiangang Liang², Jing Guo³, Hongjie Xie⁴, Qisheng Feng² & Yusupujiang Aimaiti⁵

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-018-21089-3>, published online 13 February 2018

This Article contains an error in the order of the Figures. Figures 1 and 2 were published as Figures 2 and 1 respectively. The correct Figures 1 and 2 appear below. The Figure legends are correct.

¹Institute of Arid Ecology and Environment, Key Laboratory of Oasis Ecology, Xinjiang University, Urumqi, 830046, China. ²State Key Laboratory of Grassland Agro-ecosystems, College of Pastoral Agriculture Science and Technology, Lanzhou University, Lanzhou, 730020, China. ³Xinjiang Academy Forestry, Urumqi, 830000, China. ⁴Department of Geological Sciences, University of Texas at San Antonio, Texas, 78249, USA. ⁵Department of Urban Environment Systems, Chiba University, Chiba, 263-8522, Japan. Figure 1. Spatial change trends of Xinjiang grassland NPPA (a) and (NPPP) (b) from 2000–2014. The maps were generated by ArcGIS 10.2, URL:286 <http://support.esri.com/Products/Desktop/arcgis-desktop/arcmap/10-2-2#overview>.

Figure 2. Mann-Kendall mutation criterion curve of average NPPA (left panel) and NPPP (right panel) in Xinjiang grassland from 2000–2014. (A and E) Mean Mann-Kendall mutation criterion of average NPPA and NPPP of overall grassland; (B and F) mean Mann-Kendall mutation criterion of average NPPA and NPPP of steppe grassland; (C and G) mean Mann-Kendall mutation criterion of average NPPA and NPPP of desert grassland; (D and H) mean Mann-Kendall mutation criterion of average NPPA and NPPP of meadow grassland.
