This Article contains errors in Figure 1B and 1C where the units are incorrect. The correct Figure 1 appears below.

In addition, the legend for Figure 1 is incorrect. The Figure legend,

"Crude extracts from Escherichia were used in GAD enzymatic assays and Ca2+ was not included in reaction buffers."

should read:

"Recombinant GAD proteins were expressed in Escherichia coli, purified from the bacterial crude extracts and used in the GAD enzymatic assays."

Figure 1.
