Author Correction: Closing the Nuclear Fuel Cycle with a Simplified Minor Actinide Lanthanide Separation Process (ALSEP) and Additive Manufacturing

Artem V. Gelis, Peter Kozak , Andrew T. Breshears, M. Alex Brown, Cari Launiere, Emily L. Campbell, Gabriel B. Hall , Tatiana G. Levitskaia, Vanessa E. Holfeltz  & Gregg J. Lumetta

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-019-48619-x>, published online 06 September 2019

Some of the methodology presented in this Article was published previously. The Authors neglected to cite this, which is included below as Reference 1 and should be cited in the Methods section, in the paragraph below figure 2:

“Leveraging the flexibility, multiple contactor stages were integrated into single multi-stage modules, reducing the effort required for installation and eliminating potential failure points”

should read:

“Leveraging the flexibility, multiple contactor stages were integrated into single multi-stage modules, reducing the effort required for installation and eliminating potential failure points”

Reference

1. Wardle, K. E. 3D printed modular centrifugal contactors and method for separating moieties using 3D printed optimized surfaces, US Patent 9,744,476 (Publication date 29-08-2017).
