Author Correction: *Halszkaraptor escuilliei* and the evolution of the paravian *bauplan*

Chase D. Brownstein

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-019-52867-2>, published online 11 November 2019

In this Article, the legend of Figure 2 is incorrect,

“Comparative anatomy of the cervical series in selected theropods. Cervical series of *Halszkaraptor* (A) after Cau *et al.*³², *Falcarius* (B) after Zanno³, and *Struthiomimus* (C) after Osborn¹⁰⁴.”

should read:

“Comparative anatomy of the cervical series in selected theropods. Cervical series of *Halszkaraptor* (A) after Cau *et al.*³², *Falcarius* (B) after Zanno³, and *Struthiomimus* (C) after Osborn¹⁰⁴. ecv, elongate cervical vertebra; rns, reduced neural spine.”

In addition, the legend of Figure 6 is incorrect,

“Phylogenetic relationships of *Halszkaraptor* and rostral coverings in maniraptorans. Strict consensus topology (A) recovered from the phylogenetic analysis of Coelurosauria. Clade diets follow Zanno and Makovicky¹⁵ (red = inferred carnivory; green = inferred herbivory). Tree length = 3306; Consistency index = 0.329; Retention index = 0.762. Silhouettes by the author. Dentaries of (A) *Deinonychus*, (B) *Dromaeosaurus*, (C) *Halszkaraptor* after Cau *et al.*³², (D) *Velociraptor*, (E) “*Bambiraptor*,” (F) *Tyrannosaurus*, and (G) *Struthiomimus* in lateral view. Arrows point to downturned ‘chins’ at the dentary symphysis. dr, lateral dentary ridge scale bar = 20 mm (B–F).”

should read:

“Phylogenetic relationships of *Halszkaraptor* and rostral coverings in maniraptorans. Strict consensus topology (A) recovered from the phylogenetic analysis of Coelurosauria. Clade diets follow Zanno and Makovicky¹⁵ (red = inferred carnivory; green = inferred herbivory). Tree length = 3306; Consistency index = 0.329; Retention index = 0.762. Silhouettes by the author. Dentaries of (B) *Deinonychus*, (C) *Dromaeosaurus*, (D) *Halszkaraptor* after Cau *et al.*³², (E) *Velociraptor*, (F) “*Bambiraptor*,” (G) *Tyrannosaurus*, and (H) *Struthiomimus* in lateral view. Arrows point to downturned ‘chins’ at the dentary symphysis. dr, lateral dentary ridge scale bar = 20 mm (B–F).”
