This Article contains an error in the Results section under the subheading “H1N1 and RSV-A interfere with RV-A16 replication, while RV-A16 does not interfere with either of these viruses” where,

“Co- or sequential infection (with a two-day interval) between RV-A16 and each of the other viruses (using a MOI of around 0.01 viral particles per accessible cell)”

should read:

“Co- or sequential infection (with a two-day interval) between RV-A16 and each of the other viruses (using a MOI of around 0.001 viral particles per accessible cell)”
