Author Correction: One-step Solution Processing of Ag, Au and Pd@MXene Hybrids for SERS

Elumalai Satheeshkumar, Taron Makaryan, Armen Melikyan, Hayk Minassian, Yury Gogotsi & Masahiro Yoshimura

Correction to: *Scientific Reports* <https://doi.org/10.1038/srep32049>, published online 25 August 2016

In this Article, Figure 4 contains an inappropriate base line correction and signal-to-noise (S/N) ratio duplication at low angle between the 5–10 degrees (2θ). The correct Figure 4 without any spectral processing appears as Figure 1.

Figure 1.

As a result, in the Results section,

“The XRD patterns of the delaminated MXene have very weak peaks comparable to those previously reported¹². The peak of MXene at 13° (2θ) shifts to 11° and 9° in the cases of Ag@ and Au@MXene hybrids, respectively.”

should read:

“The XRD patterns of the delaminated MXene have very weak peaks comparable to those previously reported¹².”
