Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-018-27415-z>, published online 13 June 2018.

The Article contains errors in the Materials and Methods section under the subheading ‘Life table parameters’.

“The age-stage, two-sex life table method was used to analyze the raw data.”

should read:

“The age-stage, two-sex life table method^{1,2} was used to analyze the raw data.”

In addition, the sentence,

“Finally, the means, standard errors and variances of the population parameters were bootstrapped using the computer program TWOSEX-MSChart³⁸.”

should read:

“The age-stage life expectancy (e_{xj}) was calculated according to Chi and Su⁴, while the reproductive value (v_{xj}) was calculated according to Tuan et al.⁵ and Tuan et al.⁶. Finally, the variances and standard errors of the population parameters were estimated by using bootstrap technique embedded in the computer program TWOSEX-MSChart^{38,3}.”
